

MANIVEL R

Aspiring Cybersecurity Professional | CTF Player | AI & ML Undergraduate

[LinkedIn](#) | [GitHub](#) | mr.manivel.r@gmail.com | +91 7825039006 | Tiruchirappalli, Tamil Nadu

CAREER OBJECTIVE

Computer Science (AI & ML) undergraduate with a strong interest in cybersecurity, ethical hacking, and CTF problem-solving. Seeking a cybersecurity internship to apply practical offensive and defensive security skills, contribute to security-focused projects, and grow through real-world security operations.

EDUCATION

B.E. – Computer Science Engineering (AI & ML)

Expected: 2028

University College of Engineering, BIT Campus, Anna University, Tiruchirappalli

CYBERSECURITY SKILLS

OS & Environment	Kali Linux (primary), Linux CLI, Bash scripting basics
Security Tools	Nmap, Burp Suite (Community), Wireshark, Netcat, Metasploit (basics)
Concepts	OWASP Top 10, Web Application Security, OSINT basics, CTF methodology
Practice Platform	TryHackMe
Coursework	Cisco Networking Academy – Introduction to Cybersecurity , Ethical Hacking

CTF & CYBERSECURITY PARTICIPATION

DCG CBE CTF 2026 (DCG91422) [\[CTF\]](#)

Ranked 90th out of 500+ teams at Kumaraguru College of Technology, Coimbatore (April 17, 2026). Solved web and security challenges under competitive conditions.

DCG Coimbatore Chapter Meetup 2026 [\[Conference\]](#)

Attended cybersecurity conference sessions and community networking at KCT, Coimbatore (April 18, 2026).

PROJECTS

AdaptShield

Ongoing Research Project | Python, AI/ML

- Designing an adversarial self-learning firewall with a Red Agent (AI attacker) and Blue Agent (AI defender) operating in a closed adversarial loop.
- Focused on adaptive threat detection and autonomous defense response; currently in prototype development phase.

Loan Approval Prediction System

Academic Project | Python, Scikit-learn

- Built a Logistic Regression binary classifier with data preprocessing, one-hot encoding, and feature scaling.

- Evaluated model performance using accuracy score and confusion matrix on a train-test split dataset.

TECHNICAL SKILLS

Programming	Python
Data & ML Libraries	NumPy, Pandas, Scikit-learn, Matplotlib
Dev Tools	Git, GitHub, MS Office
Languages	English, Tamil

STRENGTHS

- Analytical problem-solving with a security-research mindset
- Self-driven — actively practicing on TryHackMe and real CTFs
- Fast learner with strong curiosity for offensive security
- Team collaboration and communication
